

RAAA 2008-09 COMMITTEE ASSIGNMENTS

The Red Angus Association of America has a number of active committees. These committees exist to provide input to the staff and the Board, and represent one of our Association's most valuable resources. All members are encouraged to contact the committee members with your ideas and suggestions. By working together we can continue to keep Red Angus the progressive, innovative Breed Association that has led the industry since its foundation in 1954.
