

Registration Bulletin

by Kenda Ponder
Registration Department Manager

Please remember to check the box regarding genetic defect when submitting animals for registration!

Red Angus

4201 N. Interstate 35 • Denton, TX 76207
(940) 387-3502 • Fax (940) 383-4036 • www.redangus.com

Whole herd was observed for change in genetic defect when they were reported to RAAA. **This**

THR Calendar Events Due

Fall 2008 Weaning Worksheets

In the past, we have mailed the worksheets to members with Fall inventory females to indicate one of the three THR requirements for each female on inventory:

- Calf record through weaning---in order to comply with THR, include calves that die or are culled before weaning
- Reason code for the dam
- Disposal code for the dam

Worksheet Reminders:

- Report data after you wean the calves
- Submit non-owner bull permits, if necessary, for animals with Registered status.
- Indicate whether or not you want certificates to be printed at this time
- The Genetic Defect Statement box must be checked for data to be processed
- Have questions or need assistance, contact the Registration Dept

We will no longer mail the weaning worksheets. If you would like the report mailed to you, please let us know as soon as possible.

In order to guarantee inclusion in the Summer National Cattle Evaluation:

DATA ON PAPER must be received no later than April 12, 2009

ELECTRONIC DATA due no later than April 19, 2009

**To submit data electronically, go to Member Data:
REDS at Redangus.org**

No Progeny Report Spring 2008 calving inventory

Any cow on inventory will be inactivated unless one of the requirements for THR is submitted – a calf record through at least weaning (included calves born dead or that die or culled before weaning, with disposal code), or reason code for the cow.

Information must be submitted by April 26, 2009
