- Send a copy of your Calving Record(s).
- USDA approved Certificate of Compliance issued.

Still the Best Value at 99¢ & No Enrollment Fees!

Combo sets available for \$3 per set (Panel & EID)

Marketing Options

Feeder Fax is a proven marketing tool used to draw attention to load lot sized offerings of Red Angus influenced cattle, or large offerings at scheduled sales, marketed via video sales, livestock markets or private treaty. The Feeder Fax breakdowns details about feeder cattle and is distributed to our active buyer base to draw added attention to our bull customers' calves.

Video Sales

Red Angus has built alliances with each of the major video auctions. Those relationships have created a tradition of success in marketing Red Angus genetics which are highlighted both on-screen and in the print catalogs. Our bull customers reap the benefits of competitive bidding when large sets of Red Angus cattle are grouped together on sale day.

Livestock Markets

Over 25 livestock markets across the nation host scheduled Red Angus Feeder Calf Sales in the Fall and Spring each year, with more being added annually. These sales provide a competitive advantage for our bull customers by leveraging volume offerings of Red Angus influenced feeder cattle and drawing added buyer attention.

Our partnering livestock markets gain valuable exposure through our national advertising insertions, direct mailings promoting the sales and face to face producer meetings in their area. Repeatedly these cooperating markets enjoy an increase in customers while building loyalty from Red Angus stakeholders seeking to work with marketing partners who recognize the value of Red Angus feeders.

"In our complicated world, the Red Angus marketing programs are simple, fast and easy. I only have to fill out one sheet of paper and verify the start of my calving season to gain a marketing advantage on my calves."

- Will Bledsoe, Bledsoe Ranch, Hugo, CO
