

# Rules and Regulations

## Section 5.b.

**Change:** Three alternative Herd Prefix Letter sequences should be listed on the membership application in the order of preference. Each sequence should contain no more than ~~four~~ **five** letters and numbers but must end with a letter.

# Rules and Regulations

## Section A 1.b.

### Addition:

**Junior Membership – An active member shall be an individual younger than 21 years of age. The junior membership must be in one individual's name and may not be listed as a partnership.**

# Removed Question of Divisibility

## Section H 1.a.3

In order to transfer part interest in a bull, a Joint Owner Application (JOA) must be completed by the seller and filed in the National Office. ~~A divisible interest may be transferred to any number of other parties without the consent of the other owners. An indivisible interest may not be transferred to more than one owner unless all other joint owners authorize consent by signing an application for transfer. No transfer will be processed until all owners have authorized consent to transfer by completing an application for transfer of the multiple owned animals. An indivisible interest may be transferred to one other individual without the prior consent of the other owners.~~ The JOA includes the names of each owner and the percent each owns. ~~, and each owner's rights (divisibility rights).~~ Any time an interest in a multiple owned bull is transferred; a record of this transfer will be sent to all owners and filed in the National Office.

# Sale Terms and Conditions

## 12. GENETIC DEFECT AND PARENTAGE GUARANTEE

- a. The parentage of all animals sold by the Seller is guaranteed to the extent that the animal is by the sire and out of the dam that is indicated on its registration papers. All test results confirming an animal's genetic defect status must be disclosed to potential buyers prior to that animal's sale. All cattle have met the RAAA requirements for registration as pertaining to genetic defects. In particular, animals containing a known genetic defect carrier in their two generation pedigree (parent or grandparent) without an intervening tested free animal have been tested for said genetic defect.

### Addition:

- i. **Frozen Semen: Seller guarantees that, unless otherwise stated, and the respective RAAA registered sire(s) represented in any frozen semen offered in this sale has met RAAA requirements as stated in the rules and regulations for an AI/ET sire as known at the time of this sale, to produce offspring eligible for registration in the RAAA.**
- ii. **Frozen Embryos: Seller guarantees that, unless otherwise stated, the parents of any frozen embryo(s) offered in this sale and have met the requirements for ET parents as stated in the RAAA rules and regulations as known at the time of this sale, so that any live calves resulting from the sale of these embryos will be eligible for registration in the RAAA.**
