

AGENT – COOPERATOR TERMS & CONDITIONS (RECOMMENDED)

As a cooperator you grant the following permission to your said agent:

- Agent may receive reports on data submitted to the Association as provided under the breed improvement programs and registration procedures.
 - **For example:** performance data, pedigree data, EPD's, Dam summaries, this is inclusive of Pro extracts / Dam extracts, EPDs and all electronic files.
- Agent may apply for registration of your cattle to the Red Angus Association of America herd books but under the cooperator account number.
- Agent may submit data on your cattle, such as weaning and yearling data, to the Red Angus Association.
- Agent may request and receive official registration certificates on your cattle from the Red Angus Association of America.
- Agent may submit disposal code information on cooperator's inventory.
- Agent may submit corrections to data already entered as well as changes to an animal's name.
- Agent requesting information will be billed for all costs associated with above mentioned activities.
- Lease agreements are required for the purpose of registration of all Red Angus produced by natural service from non-owned registered Red Angus.
- Both the agent and cooperator must sign this agreement. It must be on file at the Red Angus Association of America for it to be recognized by the Association.
- Agent is authorized to submit transfer of applications on your cattle to the Red Angus Association of America.
- Written permission from the owner is not needed to release DNA case records or export documents; however, before any information will be released, the request for documentation must be in writing.
- Agent is authorized to access web site reports/inventories etc. via password of cooperator's account.
