

The Pursuit of Perfection, Volume 2

Majestic Peek A Boo A04, #1599972

Without a doubt the most highly anticipated calf to born at Majestic Meadows in 2013, and she has done nothing to disappoint. She has the look and weight per day of age to follow in her mother's footsteps as our most highly coveted female. Unfortunately, we have fallen in love with her and will only be offering 1/2 embryo interest. My son, Stewart, now 11, will show her in the bred-and-owned division only at NAJRAE. And we will respectfully reserve the right on behalf of the new partners to show her in the open female show at Louisville, Denver and wherever the third leg of the Triple Crown will be. Dark footed, capacious, sound and a sparkle in her eye, Majestic Peek A Boo A04 has the potential to shock the beef industry.

COW CAMP PROMOTIONS

Cattle In Motion will be shooting videos September 12 and Cow Camp Promotions will be producing an online catalog, but due to the short window, we will be mailing catalogs by request only. There will be an easily printable catalog available on-line at AngusLive.com, the online sale host, CattleInMotion.com, CowCampCatalogs.com and, of course, at Majestic Meadows' www.carcassbulls.com.

The cattle will be available for viewing at the farm from September 12 – 28 when they will be on display from 4 p.m. until dark. Come and enjoy the event's signature crab balls, grilled ribeyes and cold beverages. The sale will be open Sunday, September 29 and close Tuesday October 1, 7 p.m. CDT, horse race finish.

Pictured are just two of the very exciting females in the fall lineup. We anticipate 15 very selective lots sired by Lightning, Sideways, McQueen, Cowboy Cut and a black one or two by Dameron First Class and Gamble's Safe Bet.

All heifers will be eligible for NAJRAE futurity.

We hope you'll join us on Saturday, September 28 and share in the Pursuit of Perfection, Volume 2!

Majestic Lakota A15, #1599971

Lakota has been a standout since birth – much like her sister and the Lot 3 female in last year's sale. She exhibits slightly more belly but the same dark foot, long stride, big, level hip and gorgeous front end. Her dam – this being her second natural calf – has a virtually fault-free udder with excellent fore and rear attachments, level, square teat placement and ideal teat size. No doubt after a stellar show career this one will make you a cow herd. She's been many visitors' favorite.
