

*A lot has been made of the winter calves,  
but check out these spring babies!*

**MAJESTIC BLOCKANA A113, #1607944**

Going back to that conversation on "best heifer," this one always comes to mind. An old-school mating here, sired by BJR Make My Day 981 and out Lightning's maternal sister. A113 is the maternal sister to Blockana Z121, Butterberry, the 2009 National Spring Heifer Calf Champion and Majestic Blockana 728, the 2009 National Grand Champion Female. I don't know that another cow has had two natural calves be division winners in the same national show, don't know that one hasn't either but ... just saying. Again this heifer is a little green and a little lighter colored, but I wouldn't count her out next fall. Crazy-good marbling EPD too, but don't hold it against her - she still has great shape. And if you ever wanted to own a Blockana, trust me, this is a good one to own.

**MAJESTIC WINDSONG A201, #1607941**

BJR Windsong 2269 has now passed away and I'm not sure when we will sell our last one, but this one by "the bull the cat tore up" needs to be studied. She had only been here for two days and weaned for about a week on picture day. More than one person thinks she's the show heifer in the sale. Long as a freight train, rocket fronted, deep, dark, cherry red, with nearly a black foot. I have no doubt she'll be big enough. I think she is probably our best Windsong to sell to date.

**MAJESTIC GIRLIE GIRL A112, #1607942**

Identical footnote and heifer to last year's Lot 8 selection by Silver Spur. She is royally bred - sired by the Denver Grand Champion Bull out of the Denver Reserve Grand Champion TCB Luanna 08S. Her full sisters have always been champions at some point - no pressure there, Cheramie! Maybe the thickest, most complete heifer in the sale. She will work anywhere under any conditions. She is deep, dark, mahogany red, black footed and super shaped!

**MAJESTIC BLOCKANA A33, #1607946**

We lead off the Aprils with the only Burn Barrel calf in the sale. Her mother is a beautiful direct daughter of Feddes Blockana 807. This heifer is as stout as the come - big topped, deep ribbed, super sound and good footed, plus very gentle.
