

The Pursuit of Perfection, Frozen

Too much success in the IVF program has lead to the opportunity to sell a few very select fall heifer calf matings, as well as direct transfer sexed heifer eggs, conventional embryos and rare semen.

Feddes Blockanna 807, #601114

Feddes Blockanna 807 has put the face on more programs perhaps than any other female. Descending from the Bootjack program, raised in the Feddes program, proudly shown to a triple crown by the Whitestone program, she then joined the outstanding donor battery of the Solution Genetics program. She is 15 years old and serving as an IVF donor. Through the miracle of science we were able to achieve a long-term goal. That goal of yet another direct daughter of the storied female. Just the mention of 807 and, all of a sudden, people are spell bound!

Sale Offering:
