

## BIEBER HARD DRIVE Y120

Reg # 1436718

When you study Hard Drives data you are pretty hard pressed to find a sire that will post as many traits in as high of percent rank as he does. Visitors last fall and this winter have been very impressed with Hard Drive daughters in the replacement heifer pen. We have evaluated the bull pen and have over 65 sons and they will impress everyone. Hard Drive is no long producing freezable semen so the next couple of groups of sons will be where we find our next great sires.
